

Transition?

What's that?

**A bridge from the world we live in now
to the world that's coming, after:**

- The age of oil has ended
- The global climate has changed
- The world and US financial systems
have transformed

**And make no mistake –
that new world *is* coming.**

Want to find out what that means to you?

- How to understand what our future really looks like
- How to prepare *now* for the energy descent in that future
- How to regain the skills we'll all need to live there
- How to use the wealth of resources around Austin for that

Transition Austin, a part of the
global Transition Movement, offers an
Introduction to Transition
the first Wednesday of each month –
7:00 - 8:30 PM in the Carver Library,
1161 Angelina at Rosewood in east Austin.

Everyone is welcome!
